

Scale Free Flight Brief 85 October 2024

Radio Dethermalisers

I would like to clarify the rule that the FFTC have published regarding Radio Dethermalisers.

See <https://freeflight.bmfa.uk/fftc-news-130>

The ruling is for Free Flight Contest Duration Models only. The STC has been in contact with the FFTC and confirmed that this rule does not affect Free Flight Scale Models.

Calendar Dates

The end of the 2024 season draws near. Three opportunities are left in October. (One less now)

6th October Lodge Farm.

I have been in touch with Walter. The excessive rainfall at the site has left it waterlogged. The weather forecast has improved slightly but still above what is doable. Therefore, regrettably, I have postponed the event to the SAM 35 Autumn Gala on Sunday 13th in the afternoon, again weather permitting.

FF5 Scale Free Flight Flying Only class.

Emphasis on kit scale models. Highest scoring kit wins the Kit Scale Print/ Trophy.

£5 for the contest

13th October SAM 35 Autumn Gala.

Reserve date for any postponed contests.

BMFA National Centre, Buckminster NG33 5RW
