

Scale Free Flight Brief 86 November 2024

WhatsApp for Scale Free Flight

As some of you know I have started a WhatsApp group for those that are active Scale Free Flight modellers, indoor and / or outdoor. Those of you that are not active but have an interest are welcome. Not all of our community are using social media and that is just fine as I will continue with the Scale Free Flight Briefs as and when appropriate.

If you would like to be included, please email me with your mobile number.

Please do not exclude yourself from the Scale Free Flight conversation, as we need as many modellers to be in touch with each other as possible. Particularly with the dwindling numbers of us still willing and able to take part. There are of course different points of view, which is of no matter, as we all fly Scale models and attempt to have fun doing it. I often ask myself why I persist and I come up with the same answer. "Because it is there". (quote from George Mallory who climbed Mount Everest)

BMFA Scale Rule Book for 2025.

The final fettling is taking place and I hope to be able to have it ratified by the STC at the next meeting in December.

Thanks to all those that have taken part in the consultation, particularly for the Outdoor rules that have undergone a radical and somewhat controversial change. (again, why do I do it?)

More details will become available once the rules are "oked" and sent to the BMFA for publishing.

Once the Rule book is ratified by the STC it will become available in the New Year. If in the meantime you would like to know anything about the new rules, so that you can ensure your winter project is within them contact me.

Scale Free Flight Calendar

The calendar is coming together nicely and it looks again like a very busy schedule for 2025.

Hopefully there are no clashes of meetings to thin us out as in the past season. These were unavoidable.

The meetings seem to be spread out reasonably well so plenty of chance repair and trim between them.

There are a few events to confirm and once the calendar is more or less complete, I will publish it.

Your winter project

Do not be shy about your latest project. There are many Social Media sites to brag on, Try these on Facebook. **BMFA Scale, Scale Outdoor Free Flight - UK, Scale Indoor Free Flight - UK, Building and Flying - Free Flight Scale models.**

Mike.
