

Scale Free Flight Brief 89 January 2025

The Scale Technical Committee is updating their website at <https://scale.bmfa.org/> for 2025.

There is a new Competitors Declaration for 2025. This has been expanded to two pages to make it more user friendly. It also includes a section for Indoor Kit Scale, RC and FF, to enable static judges make more informed decisions when marking and awarding or deducting points. Go to Documents and then drop down box 2025 Scale Competition Forms.

If anyone requires forms or score sheets etc relevant to any of the Scale Free Flight competition classes please contact me, STC Rules Officer, or the STC at the address below. Should you wish to contact the Scale Technical Committee the email is enquiriesbmfascale@yahoo.com

Welsh Event

Martin Pike is organising a May Welsh FF scale event 10-12th May.
See SAM 1066 website for details. <https://www.sam1066.org/news.html>

Good to see a Scale event on the west side of the country. I am sure Martin would be glad to hear from you if you wish to attend.

New Scale Free Flight Event

Martyn Kinder is running an Indoor FF Scale event at the Manchester Velodrome on the 1st February. Start time 11:00, ending 16:00.

Events are Kit Scale, Peanut and Pistachio.

This will be an informal 'Norwind' event as we need to fit in with the 30-minute slots (R/C and FF Separate) and other FF duration flyers.

Martyn has offered to do the static judging and also the flight judging for kit scale. Pistachio and Peanut flights will be to normal BMFA STC rules and can be timed by anyone else.

The address is: National Cycling Centre, Stuart Street, Manchester, M11
