- come along and be inspired!

For more details contact Mike Stuart - [ffscale@googlemail.com](mailto:ffscale@googlemail.com)

Wolverhampton University, Walsall Sports Centre WS1 3TA

## **Scale Indoor Nationals**

Are you entering the RC or FF Scale Indoor Nationals?

The registration/entry form is now live and available on the STC website.

<https://scale.bmfa.org/> (click on the Indoor Nats scrolling line on the home page)

Or <https://scale.bmfa.org/bmfa-indoor-scale-nationals-2024-3908>

## **A Reminder**

For those that are entering any contest that has a static judging element to the competition, please do not forget to update your Scale Documentation with the amended Competitors Declaration 2025 version. <https://scale.bmfa.org/wp-content/uploads/SCALE-COMPETITORS-DECLARATION-2025.pdf>

This is particularly relevant now for any Indoor Kit Scale entry as the Competitors Declaration has been modified for this class to enable the judges to make more informed decisions when assessing models.

## **2<sup>nd</sup> Nationals Newsletter**

Attached to this email is a PDF document by Paul Rich that updates the progress with the Nats organisation.

## **Another Reminder**

Martyn Kinder is running an Indoor FF Scale event at the Manchester Velodrome on the 1st February. Start time 11:00, ending 16:00.

Events are BMFA Kit Scale, Peanut and Pistachio.

The address is: National Cycling Centre, Stuart Street, Manchester, M11

4DQ <https://www.nationalcyclingcentre.com/about/find-us>

Primary contact: [martyn@czd.org.uk](mailto:martyn@czd.org.uk) 07989 025198

You may have seen it on the tele' but if you have not been before it is worth it just to see the cycle racing practise, impressive!

Just in case you were wondering Andy Bowman's Scale model in Brief 87 is an Avro Tutor.

That's all for now.

Mike Smith.
