

## Scale Free Flight Brief 91 February 2025

In view of the short lead time, I am sending this out solo.

The Peterborough Model Flying Club invite you to join us at our large indoor flying venue. The hall has minimal ceiling obstructions and measures 33m x 33m: big enough to trim models for the Indoor Scale Nationals!

Visitors are welcome (BMFA Insurance required.) We are a free flight focused club but welcome sensible RC flyers. Indoor scale models that need a clear hall for trimming can be accommodated.

We run friendly competitions for Scale, Hangar Rat and Precision Landing, as well as the first national event for Rubber Powered Paper Planes.  
(see <https://peterboroughmfc.org/feature/paperfreeflight> for details.)

The hall is located close to the A1 with affordable accommodation nearby and an electric vehicle charging station within a 100 yards. We are also just half an hour from the BMFA Buckminster and North Luffenham outdoor flying sites.

There are two more sessions this winter:

- **Sunday February 9th** 10.00am to 13:00pm.

- **Sunday March 2nd** 10:00 to 16:00pm.

A six hour all-day session including The Paper Plane Nationals.

Address: Bushfield Sports Centre, Orton, Peterborough, PE2 5RQ

See <https://peterboroughmfc.org/events> for more details and future dates.
